**1** | Disassemble the printer so that you will have the printer, roll and parts A, B and C

**2** | Place part A through the hole in part B

**3** | The two pieces will align with a little notch system

**4** | Slide the roll onto part A. Align the notch in part A to part C

**5** | Make sure the roll rotates to the right direction

**6** | Lift the lid of the printer and place the roll into the printer

**7** | Align the notch on the outside of part C within the joint in the printer

**8** | Feed the roll of labels down through the front of the printer

**9** | Close the lid
